

Review Staff: 75/2264/2
12 November 1975

Mr. A. Searle Field
Staff Director
Select Committee on Intelligence
House of Representatives
Washington, D.C. 20515

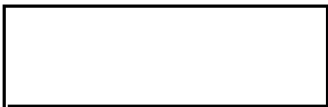

Dear Mr. Field:

As indicated in my letter of 11 November forwarding the major portion of replies to Congressman Dellums' questions, we are processing the other queries he addressed to Director Colby. Attached herewith are additional answers to Mr. Dellums' series of 32 questions as well as responses he requested relative to a "Project PHOENIX" and the CORDS Program and on the subject of briefings given to Congress regarding improprieties.

You may note that of the 19 items of information requested in question 13, responses are provided for 16 of the countries. Clarification of 2 items is requested as indicated. One reply concerning Tibet was forwarded on 10 September 1975 (RS 75/2923).

Please make the attached material available to Congressman Dellums. We would appreciate being advised when this has been done.

Sincerely,

for 
Chief, Review Staff
